

ULTIMATE REAMER

Read and understand these instructions before operating this tool.

SAVE THESE INSTRUCTIONS!

⚠ WARNING

When used improperly power tools can create hazardous situations.
Everyone using, maintaining, changing accessories or working near this tool must read, understand and follow these Safety Instructions!
Improperly used power tools can cause injury or death.

SAFETY

Reamers can cause flying particles. **Proper eye protection must be worn at all times by tool user and bystanders.**
Flying particles can cause eye injury.

Power tools generate noise. **Ear protection must be worn when tool noise level exceeds 85 dBA. We also recommend that ear protection be worn when the tool noise level is below 85 dBA. See the tool's information sheet for the noise level.** *Prolonged exposure to noise can cause hearing loss.*

Power tools vibrate. **Excessive vibration can cause injury. If numbness, tingling, pain or whitening of the skin occurs, stop using tool and consult a physician. See the tool's information sheet for the vibration level.**
Prolonged exposure to vibration can cause injury.

Reamers present a risk of entanglement. **Keep loose hair away from power tools and accessories. Keep hands away from moving parts of the tool and accessories. Do not wear jewelry, loose clothing, or neckwear around power tools. Keep work area clear of cleaning rags and all items that could become entangled with the tool.**
Entanglements can cause injuries.

Reaming operations creates dust. **Do not breathe reaming dust. Use approved mask.**
Breathing reaming dust can cause injury.

When using a reamer, sudden and unexpected tool movement can occur. The reamer may stall because of being pushed too hard.

Be sure your body position allows you to have control of the tool at all times. Make sure your footing is secure.
Sudden and unexpected tool movement can cause injury.
Using excessive force on a tool makes it hard to control.

Do not force tool.
Hard to control tools can cause injury.
Unexpected tool failures can cause injury.

Improperly repaired tools perform unpredictably. *Tools that perform unpredictably can cause injury.*
Make it a habit to check to see that all adjusting keys and wrenches have been removed from tool before turning it on. *Tools starting unexpectedly and flying keys and wrenches can cause injury.*

Working in poorly lit areas makes it hard to see hazards.
Keep work area well lit. *Poorly lit work areas can cause injury.*

Unauthorized or untrained personnel can misuse unattended tools.
Store idle tools in a high or locked-up place, out of the reach of children.
Misused tools can cause injury.

When disposing of a tool, do it in a way that does not harm personnel or the environment.

INTENDED USE

This reamer is intended to be used as a reamer for cork, burl, rubber, EVA and wood inserts for the rod building industry.

MAINTENANCE

Dust and other debris can be removed with the use of a fine wire brush or denture brush.

⚠ WARNING

Disconnect tool when not in use. ALWAYS handle with extreme care.
